WORK EXPERIENCE

Gladiator Technologies Summer 2026
Snoqualmie, WA
Electrical Engineering Intern

- Developed and revised PCB schematics and layouts, incorporating component selections and engineering design requirements.
- Performed BOM quality assurance by verifying component availability, identifying obsolete components, and sourcing suitable replacements.
- Presented PCB designs to engineering team members and incorporated technical feedback throughout the design process.

Novus Labs Summer 2024 & 2025
Hillsboro, OR
Test Technician Intern

- Analyzed and revised PCB designs; performed rework and validation testing.
- Collaborated with clients to evaluate PCBs, devices, and software performance.
- Delivered performance data and contributed to research on autonomous and audio systems.
- Applied teamwork and communication skills to coordinate engineering projects.

Langer's Entertainment Center May 2023 – Jan 2024
Sherwood, OR
Food Service Associate

- Demonstrated exceptional service skills through positive customer interactions.
- Managed customer orders and cash transactions at the register.
- Collaborated with team members to handle multiple orders simultaneously in a fast-paced environment.

EDUCATION

Bachelors of Science in Electrical Engineering
Seattle Pacific University – Seattle, WA Anticipated Graduation: June 2027
Faith for the Future merit-based scholarship
Engineering Projects and Labs

- Gained hands-on experience in PCB and schematic design, circuit analysis, and production.
- Utilized oscilloscopes, multimeters, and various electronic components to build and test circuits, including multi-output power supplies, frequency detectors, and Sallen-Key bandpass filters.

Technical Skills

- Engineering Design Software: Altium, KiCad, OrCAD, Multisim, LTspice, SolidWorks.
- Altium Basic PCB Design Certified: Proficient in designing and simulating PCB using Altium.
- Soldering: Proficient in soldering a wide range of electronic components, including both through-hole and surface-mount.
- MATLAB & C++: Experience in programming languages with practical applications.

LEADERSHIP AND ACTIVITIES

NCAA Division II Men's Soccer Athlete SPU, Seattle, Washington 2023-Present

- GNAC All-Academic Honors, 2024
- Balance demanding academic and athletic commitments with discipline and accountability.
- Collaborate and communicate effectively to achieve shared goals.
- Apply process-oriented thinking and leadership skills to continuous improvement and performance.
